

AVANT COLLECTIONS LTD

FABRIC CAPABILITY

ACG GROUP

ABOUT US.

Avant Collections Ltd is Based in Keqiao, China which is recognized as the Textile Hub and the “Heart of Fabric” in China.

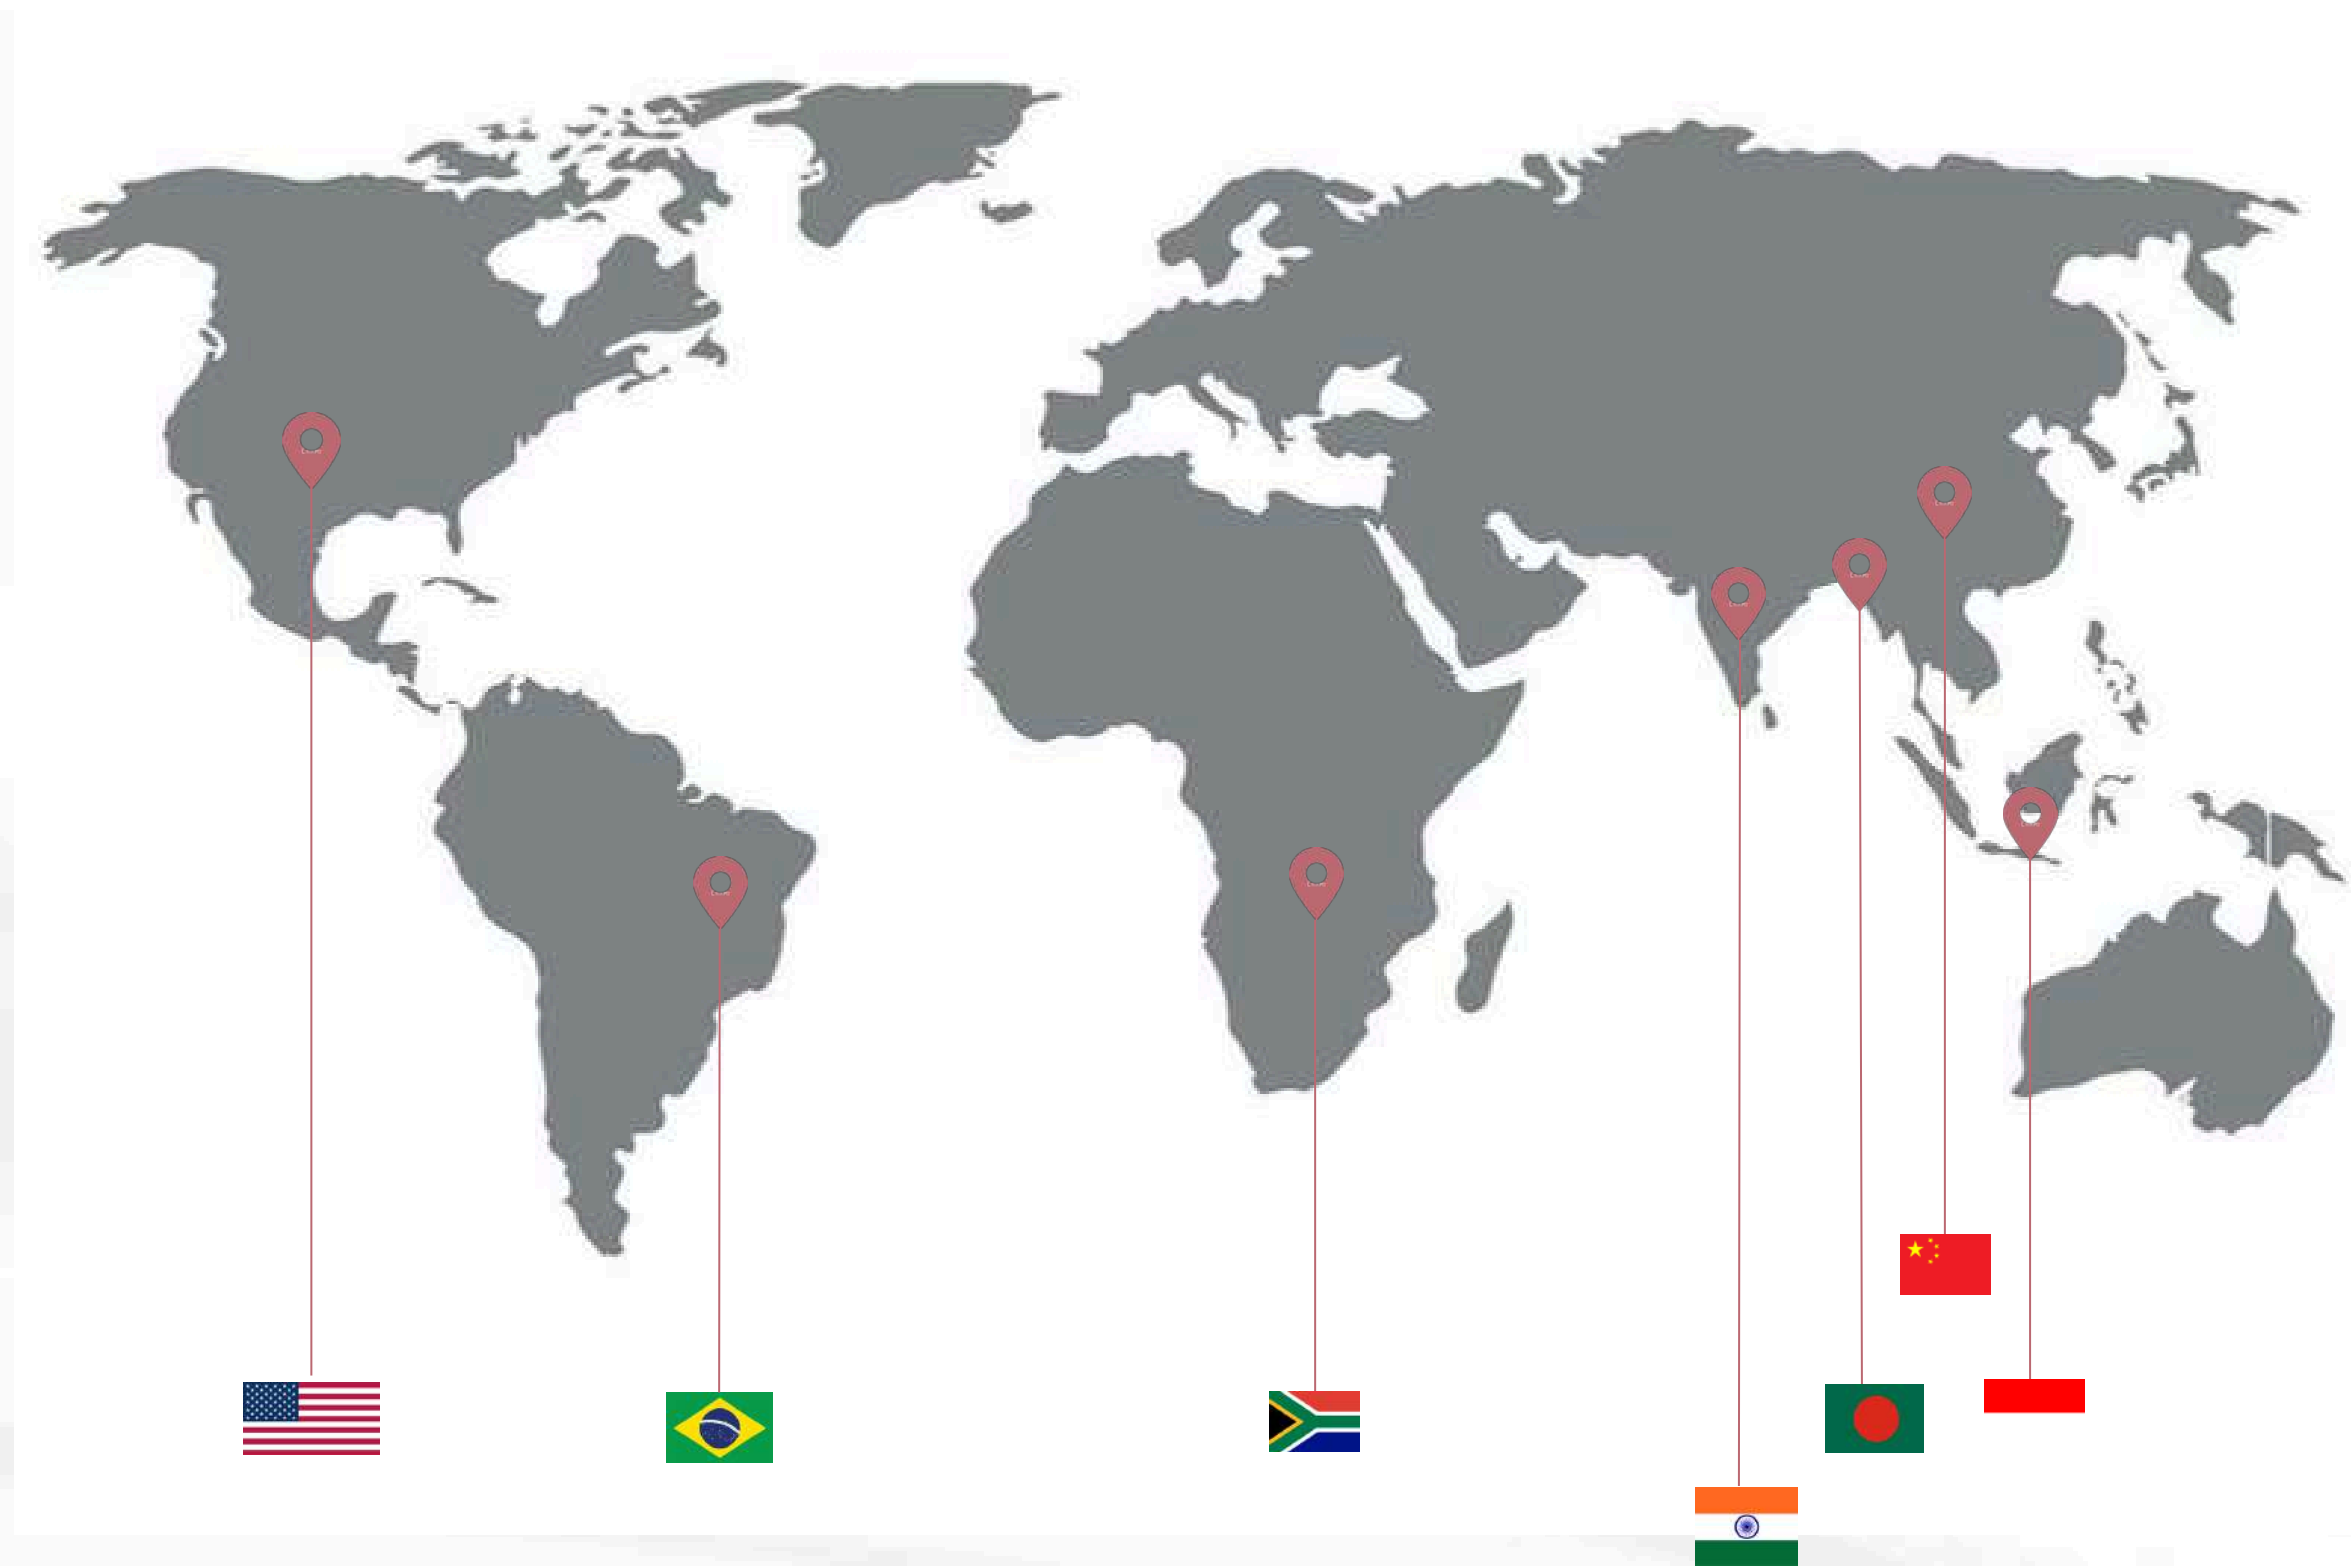

For the past 10 years, we have been successfully delivering reliable and efficient fabric sourcing solutions to global markets.

We specialize in managing mid to large-scale orders through a strong and well-established supply network. Our fabrics are supplied to key manufacturing markets including India, Bangladesh, Brazil, Indonesia, and several other global destinations.

Backed by a highly enthusiastic and experienced team, we offer strong technical expertise in handling a wide range of raw materials and fabric developments.

We are also committed to developing sustainable fabric solutions aligned with evolving industry trends and customer requirements.

Our product expertise covers fabrics for both Men’s & Women’s wear across Knitted & Woven categories. We work with a diverse range of fiber compositions and blends, including Cotton, Polyester, Rayon, Modal, Lyocell, and Linen, along with various blended constructions, available with or without stretch properties.

OUR WORKING MODEL.

END-TO-END FABRIC SOURCING FLOW

Establishing strong working relationships with multiple Fabric mills, raw material suppliers, and dyeing/processing units to support innovative developments, bulk production management, and quality-focused sourcing solutions.

Our fabric trading model is designed to provide buyers with efficient sourcing support, technical expertise, competitive pricing, and reliable execution through strong mill partnerships and proactive supply chain management.

Our expertise spans across versatile product categories, from fashion-forward fabrics to performance and technical textiles, supporting both lifestyle and specialized applications.

OUR CORE STRENGTH LIES IN!

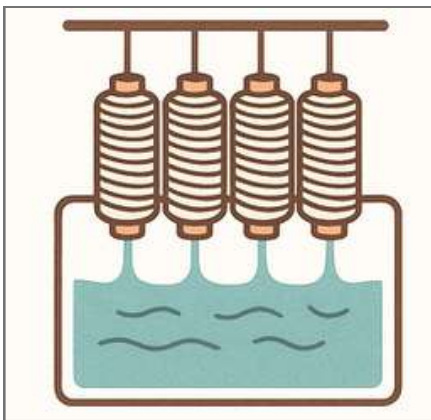

- Strong Global Fabric Supply Network
- Expertise in Mid to Large Volume Orders
- Technical Knowledge of Fibers & Fabric Constructions
- Sustainable & Innovative Fabric Developments
- Competitive Pricing & Reliable Deliveries
- Fast Sampling & Development Support
- Strong Vendor & Mill Relationships
- Quality-Focused Sourcing Solutions

WHY PARTNER WITH US.

Reliable Sourcing

Reliable sourcing support backed by a strong network of trusted fabric mills, processing units, and manufacturing partners.

Technical Expertise

Deep understanding of fabrics, fibers, fabric constructions, and their end-use garment applications across diverse product categories.

Flexible Development

Flexible product and fabric development with customized solutions tailored to buyer requirements, market trends, and performance needs.

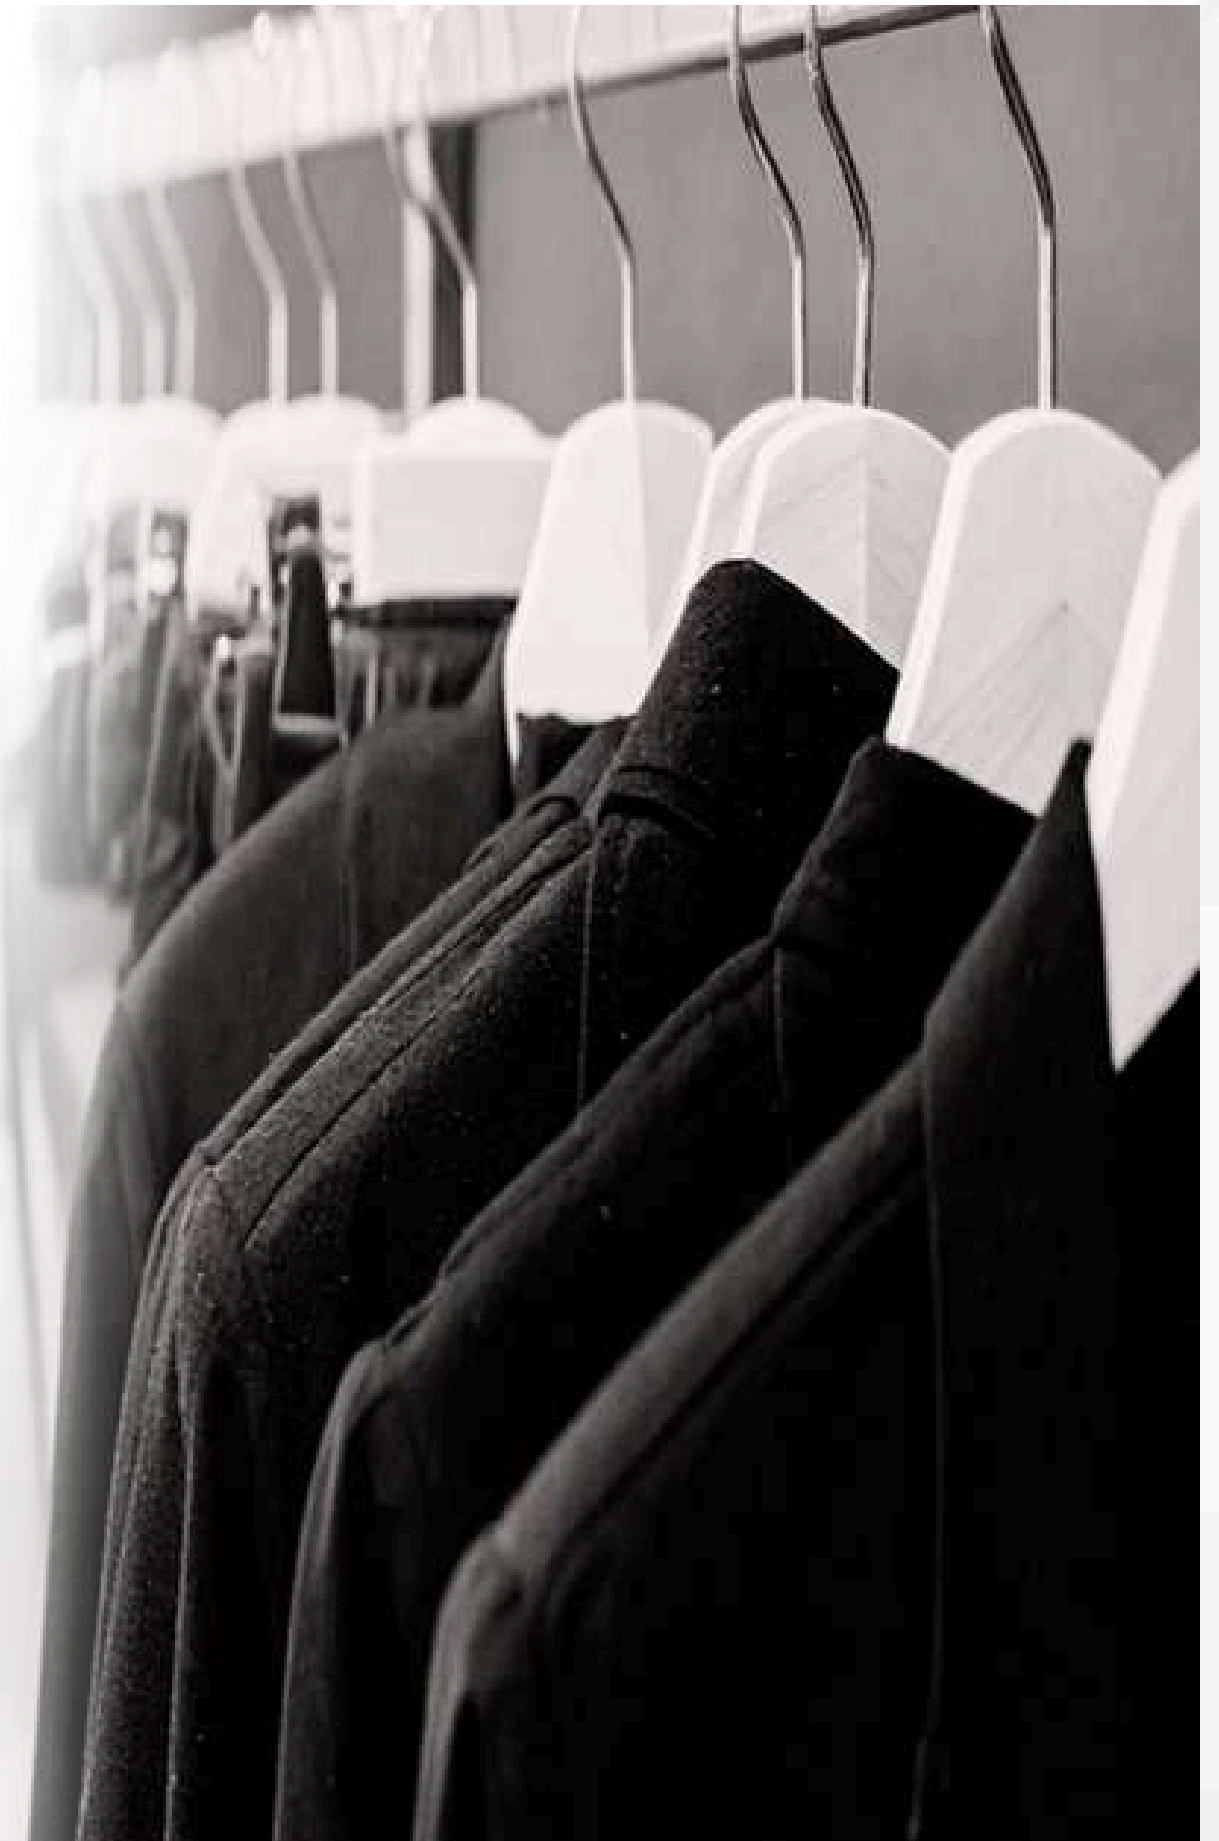

Quality Assurance

Consistent monitoring and quality control from fabric development stage to bulk production execution, ensuring reliability, consistency, and on-time delivery.

Timely Execution

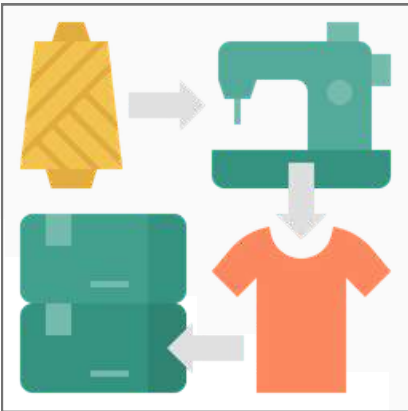

Consistent monitoring and quality control from fabric development stage to bulk production execution, ensuring reliability, consistency, and on-time delivery.

DESIGN & DEVELOPMENT

We transform customer concepts, design inspirations, and seasonal directions into commercially viable fabric developments through an efficient and market-focused product development process.

SOURCING & MANUFACTURING

Leveraging a trusted network of manufacturing partners across Asia, we deliver competitive sourcing solutions, reliable production execution, and scalable manufacturing support across diverse product categories.

QUALITY ASSURANCE

Our experienced technical teams and structured quality control systems ensure consistent product standards, reliability, and compliance throughout the development and production process.

LOGISTIC & DELIVERY

Our experienced technical teams and structured quality control systems ensure consistent product standards, reliability, and compliance throughout the development and production process.

SUSTAINABILITY & COMPLIANCE SERVICES.

SUSTAINABLE APPROACH

Sustainable approach toward fabric development and sourcing services with a focus on eco-friendly materials, responsible processing, innovative textile solutions, and environmentally conscious supply chain practices.

Our goal is to support responsible and sustainable production practices while maintaining commercial viability, product performance, and long-term value for our partners.

SUSTAINABLE FABRIC SOLUTION

- Biodegradable Polyesters and Nylon alternatives
- Organic Cotton & BCI Cotton developments
- Recycled Polyester and sustainable blended fabrics
- Recycled Nylon fabric solutions
- Eco Viscose and responsible cellulosic fibers
- Lyocell-based sustainable fabric developments
- Hemp fabric solutions for natural and eco-conscious products
- Bamboo fabric developments with soft and functional performance properties

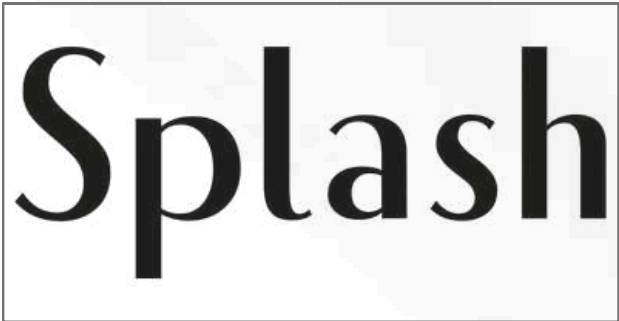

CERTIFICATION

OUR CUSTOMER .

BRANDS CATERING FOR FABRIC SUPPORT

We have experience supporting brands and manufacturing partners with fabric sourcing, development, innovation, and supply chain solutions across multiple apparel categories including. We collaborate closely with brands and sourcing teams to deliver commercially viable and trend-driven fabric solutions.
